

Revised Estimated Dates For Future RDCP Sessions

The below dates are subject to change, but these are the estimated dates for various RDCP session related events. More details can be obtained through Competency Administrative Officers or the RDCP manager, Kelli Willshire (k.f.willshire@larc.nasa.gov). The dates given in the current session's training take precedence over these dates.

(Due to the an earlier error of omitting the required 30-day Panel Preparation Time in Sessions 6, 7, 8, and 9, the following sessions are expanded by about 30 days, each, from earlier schedules. This has the total effect of changing the end date of Session 9 by about 4 months.)

Session 7

Employees notified for review August 15, 2003

Packages due OHR and RDCP manager **October 8, 2003**

Panels prepare **October 9-November 11, 2003**

Panels meet **November 12 – December 18, 2003**
